## PROFILE

I recently completed my studies in computer programmer in May 2011. I have a wide range of direct and transferrable skills, experience and knowledge, obtained throughout my career, which I can bring to your organisation.

I can work alone as well as in a team. I have worked in teams and as a team leader. Meeting the deadlines is very important for me.

I have trade experience. I have been self-employed trade and I have worked in companies I am flexible, adaptable and willing to undertake a wide range of works. I have taken courses to expand my knowledge about communication and leadership.

## KEY TECHICAL SKILLS

|                                    |   |
